FAYÇAL GHEROUFELLA

PHP / FLUTTER DEVELOPER — ERP & BUSINESS APPLICATIONS · IT & FINANCE BACKGROUND

+213 542 99 59 81 • gheroufellafaycal@gmail.com • Algeria • Portfolio: faysal12369.github.io/faysal • github.com/faysal12369 • linkedin.com/in/faysal-gheroufella-4a7969355

PROFESSIONAL SUMMARY

PHP / Flutter developer with over 2 years of experience at SINAL (optical lens distribution), holding a **Master's degree in Audit and Accounting**. I have designed and delivered **more than 15 business applications** — web (PHP/MySQL), mobile and desktop (Flutter, WinDev Mobile) — and I am the main contributor to the company's two web ERPs (team projects). I integrate field hardware (Honeywell terminals, thermal printers, ZKTeco time clocks) and legacy systems (HFSQL via ODBC), and automate processes with n8n and AI (Google Gemini). My finance background helps me understand the business logic behind the data.

Goal: a backend PHP, Flutter or ERP developer role where my technical skills and my understanding of financial processes add real value.

EXPERIENCE

Application Developer — PHP · Flutter · WinDev Mobile

May 2024 – Present

SINAL — Algeria

Official job title: IT Maintenance & Development Technician

- Designed and built more than 15 business applications, from requirements to go-live and support.
- PHP/MySQL backend: secured REST APIs (JWT), roles and permissions, PDF/Excel exports, email notifications.
- Flutter apps (Android, Windows, Web: Provider, Riverpod, BLoC) and WinDev Mobile apps.
- Hardware integration: barcode scanning on Honeywell terminals (SDK), label printing on Xprinter thermal printers (TSPL), ZKTeco biometric time clocks.
- Main contributor to the company's two web ERPs, as part of a team: ERP DS (public tenders, purchasing, logistics) and ERP DG (general services); migrated WinDev/HFSQL data via ODBC.
- Maintained and extended existing WinDev / HFSQL software (tender tracking, stock, treasury).
- User support, incident troubleshooting and IT asset maintenance.

PROJECTS

ERP DS — Public Tenders, Purchasing & Logistics

Team project, main contributor · PHP 8, MariaDB, Docker, n8n, OCR (Tesseract)

↗ github.com/faysal12369/erp-ds

- Full tender lifecycle: bids, lots, contracts, guarantee bonds and deadlines, engineering reviews, purchase orders, containers, deliveries and partial payments.
- 145 tables, 18 roles and ~165 permissions with an audit log; Excel import with dry run, HFSQL import via ODBC, offline contract OCR, scheduled alerts, secured API for n8n.

ERP DG — General Services

Team project, main contributor · PHP, MySQL, n8n, ODBC

↗ github.com/faysal12369/erp-dg

- Purchase requests with an approval chain up to the CEO, purchase orders, stock (transfers, counts, 3D location map), treasury, fixed assets, missions, fleet, HR, versioned documents, quality, IT tickets.
- ~120 tables and ~150 API endpoints; per-menu and per-action rights, multi-year, legacy HFSQL import, barcode / QR labels, n8n webhooks.

SinalGo — Courier Payment Collection

Android · Flutter, WinDev Mobile, PHP API, Honeywell SDK

↗ github.com/faysal12369/sinalgo

- Scans the delivery note on a Honeywell terminal (camera fallback), checks payment status, records the payment, captures the client's signature and GPS position.
- Courier and admin dashboards, history; first built in WinDev Mobile, then rewritten in Flutter.

Product Labelling & Barcodes

Windows · Flutter Desktop, TSPL, FFI (winspool), Code128

↗ github.com/faysal12369/xprinter-label-printing

- 60×40 mm labels (CE, IMEI and serial number as Code128) rendered as 1-bit images at 203 dpi, sent as raw TSPL.
- Batch barcode printing from a code range or an Excel file, with PDF preview.

SINAL ERP — Flutter Web Front End

Flutter Web, Riverpod, go_router, dio, fl_chart

↗ github.com/faysal12369/sinal-erp-flutter

- 22 modules (tenders, purchasing, stock, clients, suppliers, file drive, messaging…), ~76,000 lines of code, 28 test files.
- Code128 / QR stock labels; designed an AI assistant (n8n + Gemini) limited by role.

TB Sinal — Sales & Finance Dashboard

Flutter (BLoC), WinDev Mobile, PHP API, MySQL

↗ github.com/faysal12369/tb-sinal-dashboard

- Sales and collection KPIs: sales reps, branches, top clients, receivables, inactive clients, sales by product family.
- PHP API with 79 actions on a MySQL database of about 40 tables; Google Maps views.

n8n & AI Automations

n8n, Google Gemini, Gmail / Outlook, webhooks

- Gemini AI agent reading PDF invoices from email; automatic printing of leave requests; ERP ticket notifications.

Web Business Applications

PHP, MySQL, JWT, JavaScript

- **SCMC:** public-tender follow-up (lots, teams, planning, guarantee bonds, non-conformities). **Claims:** lens expertise, corrective actions, Excel/PDF export.
- **HR:** employee records and professional ID cards. **Mission orders** (web and Flutter Desktop). **IT TaskFlow:** IT assets, barcodes, audit log.
- **Sinal-E Pro:** online prescription-lens ordering portal for opticians, JWT API. Contributions to **SINAL Cartes** (discount cards with revocable QR codes) and the new claims app.

Other Flutter Applications

Android · Windows

- **Sinal Event** (github.com/faysal12369/sinal_event): trade-show registration, QR check-in, signature. **Inventory:** stock counting and approval. **Freight calculator:** spreads freight costs across items, Excel import/export, PDF. **ZKTeco clock-in.**
- **CV Maker** (personal, github.com/faysal12369/cv-maker): 12 templates, multilingual, PDF export.

TECHNICAL SKILLS

Backend & Web	PHP 8, REST APIs, JWT, JavaScript, HTML5, CSS3, Bootstrap, Chart.js, PHPMailer
Mobile & Desktop	Flutter / Dart (Android, Windows, Web), Riverpod, BLoC, Provider, go_router, dio; WinDev Mobile
Databases	MySQL / MariaDB, SQL, HFSQL, ODBC, relational modelling, triggers
Hardware & printing	Honeywell SDK (scanning), Xprinter thermal printers (TSPL), Code128 / QR, ZKTeco time clocks
Automation & AI	n8n (Gmail, Outlook, webhooks, scheduling), Google Gemini AI agents, PDF data extraction
Tools	Git, GitHub, XAMPP / Apache, WinDev & WebDev (maintenance), Docker (basic)
Support	User support, incident troubleshooting, IT asset maintenance, networking / IP

BUSINESS SKILLS — FINANCE & AUDIT

General accounting (Algerian SCF) • Reading financial statements • Audit and internal control • Financial analysis • Treasury and receivables • Business rules → features

EDUCATION & CERTIFICATIONS

Master 2 — Audit and Accounting	2021 – 2023
Bachelor's Degree — Finance and Accounting	2018 – 2021
Baccalaureate — Management and Economics	2018
Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM · Coursera	2026
Build Intelligent Agents Using DeepSeek & N8N — Board Infinity · Coursera	2026

LANGUAGES & SOFT SKILLS

Languages	Arabic — Native • French (DELF B2) — Fluent • English — Fluent
Soft skills	Autonomy and self-learning • Analytical and logical thinking • Fast learner • Adaptability and versatility • Rigour and organisation • Perseverance and determination • Initiative • Service mindset and listening • Technological curiosity • Problem solving
