FAYÇAL GHEROUFELLA

PHP / FLUTTER DEVELOPER — ERP & BUSINESS APPLICATIONS · IT & FINANCE BACKGROUND

+213 542 99 59 81 • gheroufellafaycal@gmail.com • Algeria • Portfolio: faysal12369.github.io/faysal • github.com/faysal12369 • linkedin.com/in/faysal-gheroufella-4a7969355

PROFESSIONAL SUMMARY

PHP / Flutter developer with over 2 years of experience at SINAL (optical lens distribution), holding a **Master's degree in Audit and Accounting**. I have designed and delivered **more than 15 business applications** — web (PHP/MySQL), mobile and desktop (Flutter, WinDev Mobile) — and contributed to the company's web ERPs. I integrate field hardware (Honeywell terminals, thermal printers, ZKTeco time clocks) and legacy systems (HFSQL via ODBC), and automate processes with n8n and AI (Google Gemini). My finance background helps me understand the business logic behind the data.

Goal: a backend PHP, Flutter or ERP developer role where my technical skills and my understanding of financial processes add real value.

EXPERIENCE

Application Developer — PHP · Flutter · WinDev Mobile

May 2024 – Present

SINAL — Algeria

Official job title: IT Maintenance & Development Technician

- Designed and built more than 15 web, mobile and desktop business applications, from gathering requirements with departments to go-live and user support.
- PHP/MySQL backend: secured REST APIs (JWT), roles and permissions, PDF/Excel exports, email notifications.
- Flutter apps (Android, Windows, Web) with Provider, Riverpod and BLoC, and WinDev Mobile apps connected to PHP APIs.
- Hardware integration: barcode scanning on Honeywell terminals (SDK), label printing on Xprinter thermal printers (TSPL), ZKTeco biometric time clocks.
- Contributed to the company's web ERPs (team projects) and migrated data from legacy WinDev/HFSQL software via ODBC.
- Maintained and extended existing WinDev / HFSQL software (tender tracking, stock, treasury).
- Process automation with n8n and Google Gemini (email workflows, invoice extraction, automatic printing).
- User support, incident troubleshooting and IT asset maintenance.

PROJECTS

SinalGo — Courier Payment Collection

Android · Flutter, WinDev Mobile, PHP API, Honeywell SDK

↗ github.com/faysal12369/sinalgo

- Scans the delivery note on a Honeywell terminal (camera fallback), checks payment status, records the payment, captures the client's signature and GPS position.
- Courier and admin dashboards, history; first built in WinDev Mobile, then rewritten in Flutter.

Product Labelling & Barcodes

Windows · Flutter Desktop, TSPL, FFI (winspool), Code128

↗ github.com/faysal12369/xprinter-label-printing

- 60×40 mm labels (CE mark, IMEI and serial number as Code128) rendered as a 1-bit image at 203 dpi and sent as raw TSPL to the Xprinter through the Windows API.
- Batch barcode printing from a code range or an Excel file, with PDF preview.

SINAL ERP — Flutter Web Front End

Flutter Web, Riverpod, go_router, dio, fl_chart

↗ github.com/faysal12369/sinal-erp-flutter

- 22 modules (tenders, purchasing, stock, clients, suppliers, file drive, messaging…), ~76,000 lines of code, 28 test files.
- Code128 / QR stock labels; designed an AI assistant (n8n + Google Gemini) with role-based access control.

TB Sinal — Sales & Finance Dashboard

Flutter (BLoC), WinDev Mobile, PHP API, MySQL

↗ github.com/faysal12369/tb-sinal-dashboard

- Sales and collection KPIs: sales reps, branches, top clients, receivables, inactive clients, sales by product family.
- PHP API with 79 actions on a MySQL database of about 40 tables; Google Maps views.

n8n & AI Automations

n8n, Google Gemini, Gmail / Outlook, webhooks

- Gemini AI agent extracting data from PDF invoices and receipts received by email; automatic printing of leave requests (HTML → PDF → silent print); ERP ticket notifications.

Company Web ERPs — team projects

PHP 8, MySQL / MariaDB, n8n, ODBC

- Contributed to the General Services ERP (purchasing with approval workflow, stock, treasury, missions, fleet, HR, document management, quality) and the public-tender ERP (calls for tender, lots, guarantee bonds, purchasing, containers).
- Also contributed to **SINAL Cartes** (85×54 mm discount cards, secure revocable QR codes, mobile client interface) and to the new version of the claims application.

Web Business Applications

PHP, MySQL, JWT, JavaScript

- **SCMC:** public-tender follow-up (lots, teams, planning, guarantee bonds, non-conformities). **Claims:** lens expertise, corrective actions, Excel/PDF export.
- **HR:** employee records and professional ID cards. **Mission orders** (web and Flutter Desktop). **IT TaskFlow:** IT assets, supplies with barcodes, audit log.
- **Sinal-E Pro:** online prescription-lens ordering portal for opticians, JWT API.

Other Flutter Applications

Android · Windows

- **Sinal Event** (github.com/faysal12369/sinal_event): trade-show registration, QR check-in, signature. **Inventory:** stock counting and approval. **Freight calculator:** spreads freight costs across items, Excel import/export, PDF. **ZKTeco clock-in:** real-time punch notifications.
- **CV Maker** (personal project, open source: github.com/faysal12369/cv-maker): 12 templates, multilingual including Arabic, PDF export.

TECHNICAL SKILLS

Backend & Web	PHP 8, REST APIs, JWT, JavaScript, HTML5, CSS3, Bootstrap, Chart.js, PHPMailer
Mobile & Desktop	Flutter / Dart (Android, Windows, Web), Riverpod, BLoC, Provider, go_router, dio; WinDev Mobile
Databases	MySQL / MariaDB, SQL, HFSQL, ODBC, relational modelling, triggers
Hardware & printing	Honeywell SDK (scanning), Xprinter thermal printers (TSPL), Code128 / QR, ZKTeco time clocks
Automation & AI	n8n (Gmail, Outlook, webhooks, scheduling), Google Gemini AI agents, PDF data extraction
Tools	Git, GitHub, XAMPP / Apache, WinDev & WebDev (maintenance), Docker (basic)
Support	User support, incident troubleshooting, IT asset maintenance, networking / IP

BUSINESS SKILLS — FINANCE & AUDIT

General accounting (Algerian SCF) • Reading financial statements • Audit and internal control • Financial analysis • Treasury and receivables • Translating business rules into features

EDUCATION & CERTIFICATIONS

Master 2 — Audit and Accounting	2021 – 2023
Bachelor's Degree — Finance and Accounting	2018 – 2021
Baccalaureate — Management and Economics	2018
Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM · Coursera	2026
Build Intelligent Agents Using DeepSeek & N8N — Board Infinity · Coursera	2026

LANGUAGES & SOFT SKILLS

Languages	Arabic — Native • French (DELF B2) — Fluent • English — Fluent
Soft skills	Autonomy and self-learning • Analytical and logical thinking • Fast learner • Adaptability and versatility • Rigour and organisation • Perseverance and determination • Initiative • Service mindset and listening • Technological curiosity • Problem solving
